

**REMARKS**

Claims 1-11 have been amended in order to write these claims in the appropriate U.S. claim format.

Claim 13 has been canceled.

Claims 14-26 have been added by the foregoing amendments. Support for claims 15-19 occurs, for example, at page 12, lines 14-18 of the specification. Support for claims 20-26 occurs, for example, at page 14, line 26 to page 15, line 4 of the specification.

Claims 1-12 and 14-26 remain in the application.

Attached hereto is a marked-up version of the changes made to the claims by the instant amendment. The marked-up version is entitled "Version With Markings To Show Changes Made".

Respectfully submitted,

Date: March 6, 2002

Version With Markings to Show Changes MadeIn the Claims:

Claims 1-11 have been amended as follows:

1. (amended) A compound of formula (I):

where

X is N or CH;

A represents a group of formula (a) or (b)

$R_1$  represents a hydrogen atom or an  $-NH_2$ ,  $-NR_3R_4$ ,  $-NR_3CO(C_1-C_4)Alk$  or  $-NR_3SO_2(C_1-C_4)Alk$  group;

$R_2$  represents a hydrogen or halogen atom or a  $(C_1-C_4)Alk$ ,  $(C_1-C_4)alkoxy$ ,  $-COOH$ ,  $-COO$   $(C_1-C_4)Alk$ ,  $-CN$ ,  $-CONR_3R_4$ ,  $-NO_2$ ,  $-SO_2NR_3R_4$  or  $-NHSO_2(C_1-C_4)Alk$  group;

m and n each represent 0, 1 or 2;

$R_3$  and  $R_4$  each represent a hydrogen atom or a  $(C_1-C_4)Alk$  group;

$Y_1$  and  $Y_2$  each represent NH or O;

~~and their salts or solvates~~ or a salt or solvate thereof.

2. (amended) The A compound as claimed in claim 1, where X represents CH.

3. (amended) The A compound as claimed in claim 1, where X represents a nitrogen atom and the  $R_2$  group is in the 5-position.

4. (amended) ~~The~~ A compound as claimed in claim 1, where the (C<sub>1</sub>-C<sub>4</sub>)Alk group is a methyl or ethyl group.

5. (amended) ~~The~~ A compound as claimed in claim 1, where R<sub>2</sub> is chosen from -COOH, -COO(C<sub>1</sub>-C<sub>4</sub>)Alk, -CN, -NO<sub>2</sub>, -CONR<sub>3</sub>R<sub>4</sub> and -NHSO<sub>2</sub>-(C<sub>1</sub>-C<sub>4</sub>)Alk.

6. (amended) 3-[1-(5-Ethoxycarbonylpyrid-2-yl)-4-piperidinylamino]-1-(1,2-dihydro-2-oxobenzimidazol-4-yloxy)-2-propanol ~~and its salts or solvates~~ or a salt or solvate thereof.

7. (amended) 3-[1-(5-Ethoxycarbonylpyrid-2-yl)-4-piperidinylamino]-1-[2-aminopyrid-5-yloxy]-2-propanol ~~and its salts or solvates~~ or a salt or solvate thereof.

8. (amended) A process for the preparation of the compound of claim 1, ~~characterized in that~~ wherein an epoxide of formula (II):

in which A' represents the group (a) or the group (b) in which R<sub>1</sub> is optionally protected, where (a), (b) and R<sub>1</sub> are as defined in claim 1, is reacted with an amine of formula (III)

where m, n, R<sub>2</sub> and X are as indicated above, the protective group optionally present is removed and, optionally, the product of formula (I) thus obtained is converted into one of its salts or solvates.

10070453-030602

9. (amended) A process for the preparation of the compound of claim 1 where A represents a group (b) and R<sub>1</sub> is an NH<sub>2</sub> group, ~~characterized in that~~ wherein a product of formula (II) as defined in claim 8 where A' is the group (b) and R<sub>1</sub> is a group of formula:

is reacted with an amine of formula III and the product of formula IV thus obtained:

is subjected to a hydrogenation reaction in order to convert the 4-nitrophenyldiazenyl group to an amino group and, optionally, the product of formula (I) thus obtained is converted into one of its salts or solvates.

10. (amended) A process for the preparation of the compound of claim 1 where A represents the group (a) and Y<sub>1</sub> and Y<sub>2</sub> represent a nitrogen atom, ~~characterized in that~~ wherein a compound of formula (V):

is reacted with a compound of formula (III) as defined in claim 8, the nitro group of the product of formula (VI) thus obtained:

10070453-030602

is reduced, the product of formula (VII) thus obtained:

is treated with a carbonylation agent, the product of formula (I) thus obtained is isolated and, optionally, is converted into one of its salts or solvates.

11. (amended) ~~The A~~ process as claimed in claim 10, ~~characterized in that~~ wherein the carbonylation agent is chosen from carbonyldiimidazole and phosgene.

Claim 13 has been canceled.

Claims 14-26 have been added.
